SPRADLING®

SUPERIOR
PROTECTION:
COATED FABRICS
SAFEGUARDED WITH

PERMABLOK³®
ADVANCED VINYL PROTECTION

Spradling's Coated Fabrics have always offered superior protection against germs, stains and abrasion! Thinking of the most frequent problems encountered in the healthcare, hospitality, and mass transportation sectors, we engineered **PERMABLOK^{3®}**, a resilient and effective defence system that ensures hygienic spaces.

SUPERIOR PROTECTION AGAINST GERMS

Using Spradling's Coated Fabrics with **PERMABLOK^{3®}** protective finish, germs counts can be kept to a minimum. It also guards against the surface growth of fungus, mould, and mildew spores which can cause unpleasant odours and allergic reactions. With its unsurpassed antifungal protection, Spradling's Coated Fabrics are also resistant against gram-positive, gram-negative bacteria, filamentation and yeast.

VIRUCIDAL ACTIVITY

PERMABLOK^{3®} is an effective barrier against the virus as is certified with:

- **ISO 18184:** reduction of Coronavirus* presence by more than 90% within one hour of contact.
- **ISO 21702:** reduction of Coronavirus* activity by 99,9% within 24 hours of exposure on the surface.

BACTERIOSTATIC PROPERTIES

PERMABLOK^{3®} ensures free from bacteria upholstered surfaces as is certified with:

- **ISO 22196:** Value of antibacterial** activity $R > 2$.

* Testing was conducted with material exposed to Feline Coronavirus (same coronavirus family, structures, and mechanisms similar to SARS-Cov2).

** Testing was conducted with material exposed to Staphylococcus aureus, Staphylococcus aureus (MRSA), Escherichia coli, and Klebsiella pneumoniae.

SUPERIOR ANTI-STAIN PROTECTION

PERMABLOK^{3®} makes Spradling's Coated Fabrics an easy-to-clean upholstery solution that helps to wipe out the most common stains like grease, blood, suntan lotion, crayon, ketchup, black felt tip pens, and other stubborn stains that occur in public spaces.

HIGH ABRASION RESISTANCE

Increasing durability to ensure that your upholstered furniture continues to look like new, **PERMABLOK^{3®}** remains highly resistant to deterioration such as cracking, splitting, and loss of flexibility.

SPRADLING[®], Protection that covers the world

CLEANING AND DISINFECTION GUIDE

FOLLOW THE RECOMMENDED CLEANING AND DISINFECTION STEPS TO MAINTAIN THE COATED FABRICS APPEARANCE AND PROTECTIVE QUALITIES

To keep your environment free of virus and bacteria, regular cleaning is essential. The easy cleaning properties offered by Spradling's coated fabrics not only make this task a breeze but also ensures the durability of your furniture and surfaces.

DAILY CLEANING AND MAINTENANCE

- 1 Clean the entire surface using a mixture of 1:1 liquid soap (neutral pH) and water. Do not use soap or cleaning solutions that contain alcohol, ketones, xylene, acetates or solvents (mineral/white spirits).
- 2 Completely remove excess cleaner with a white, clean, damp cloth.
- 3 Dry the surface.
